

Broadway *Tower*

Discover the beauty
of the Highest little castle
in the Cotswolds

- Magnificent achitecture
- Fascinating Exhibitions
- Dramatic Roof Viewing

Magnificent Architecture

This unique Capability Brown Folly was built by James Wyatt whose visionary mixture of architectural styles makes Broadway Tower still outstanding today.

Fascinating Exhibitions

Graphic Displays on three floors invite you to travel in time and share in the lives of the Earls of Coventry, William Morris, eccentric collectors and wartime heroes.

Dramatic Views

Broadway Tower was built on an ancient beacon site with views in a radius of 62 miles. Be amazed to see the Welsh Mountains at the same time as Buckinghamshire from our roof viewing platform or simply marvel at our herd of Red Deer with "Bambies" from mid-June.

Opening Times

10.30 - 17.00 Daily
(may vary in severe weather)
